

Behrents Endodontic Specialists

Dr. Katherine Behrents | Dr. Nathaniel Behrents

- “Excellent. Very informative, caring and a relax atmosphere. Most satisfied.” ~**ZB**
- “The thing that is jammed between the upper and lower set of teeth to keep the mouth open during the procedure is brutal. That was the worse than the procedure itself.” ~**SW**
- “I wish that you could have done my crown. I had more pain after visiting my dentist on September 1 for the temporary crown than I did as a result of the root canal. My temporary crown fell out 3 days later and really dread going back for the permanent crown. I felt totally abused from my regular dentist and assistant. I did not take any prescription pain pills until after the 9/1 visit to my dentist. It was far worse than the root canal.” ~**DC**
- “Very pleased with the visit. The root canal was quick and basically painless. One little suggestion is to put a little more numbing ointment on the inside gum. I had a little (not much at all) discomfort with the shot there. Otherwise the shots were not bad at all and the overall procedure went great. The lady in the procedure was super nice as was Nate. I would recommend you all for sure.” ~**PW**
- “Will definitely come back for additional treatments on other teeth.” ~**FA**
- “I had been putting off the procedure for years based upon comments of how “terribly painful” the procedure, but had I known how expeditious the process and the relative pain-free recovery, I would have submitted to this procedure many, many months before.” ~**RN**
- “Dr. Behrents was able to quickly determine the cause of recent dental pain and offer a solution for follow-up with my referring dentist. I found him very knowledgeable.” ~**RJ**
- “Modern equipment, comfortable environment, the most knowledgeable, friendly, and accommodating staff I have experienced in the health or dental industry. Of the three root canals Dr. Behrents has performed on me I fell asleep during two; enough said.” ~**MW**
- “I can’t say enough about the care that I received by Dr. Nate Behrents. I really felt that he listened to me at my first appointment and let me tell him what I needed in order to be comfortable. Not to mention, this office has technology that allows them to not only work fast but accurately which limits the amount of time you are in the chair. Dr. Behrents has several levels of sedation and he let me choose based on the procedure I was having and my level of sedation. I’ve had previous root canals with other local dentists/endodontists and because they don’t have the technology Dr. Behrents does, I was in the chair for hours vs. 45 minutes. Dr. Behrents also gives you his cell phone number so he can be reached after hours vs. calling a nurse line and waiting for the doctor to call you back. Having a root canal is not an experience that anyone wants

Behrents Endodontic Specialists

Dr. Katherine Behrents | Dr. Nathaniel Behrents

to have, but if you have to have it done, go to Dr. Behrents because he understands dental anxiety and wants you to have a pleasant experience.” ~**AE**

- “She was great with my very scared daughter who had a horrible dental experience the day before!!! Thanks so much for helping us!” ~**MM**
- “My root canal experience with Dr. Behrents was as close to painless as possible. The staff was very nice and the procedure did not seem to take long at all. I recommend Dr. Behrents because of the professional staff and the quality work they do.” ~**PW**
- “My overall visit was excellent. I felt cared for and comforted by all staff.” ~**AM**
- “I have been to this office multiple times and each time is a good experience. I am a patient who is terrified of a Dentist or Endodontist. I have been made to feel comfortable and know that my care and pain level are important to the DR’s as I have now been treated by both. Thank you for your care!” ~**DW**
- “You are always such a pleasure to work with and love coming to your office. The staff is so friendly and the doctors actually care for their patients. The care received in the office is superb and would recommend anyone that needs these services to come to your office!” ~**JR**
- “I experience a LOT of anxiety related to dental procedures, and I was extremely nervous about this appointment. However, the staff and doctor did an excellent job making me feel as comfortable as possible. Except for the pain as the anesthesia was wearing off (which I treated with 800mg of Advil per the doctor’s recommendation), I began to feel better almost immediately, and I feel even better today. I also really appreciated the call this morning from one of your staff members checking up on me! In all, it was a good experience, especially given my anxiety leading up to the appointment.” ~**JC**
- “You can expect to be highly recommended. I have NEVER had such a great experience at the dentist as I did at your office, from front girls to dental assistants to Dr. Nathaniel. Thank you so much. P.S. I don’t even have a mark where the IV was. Very happy today.” ~**DB**
- “How can someone make a root canal a wonderful experience? Well somehow you guys did it! Thanks Dr. Behrents and staff, I appreciate it! I will recommend you to anyone who needs it.” ~**SL**
- “I will recommend Behrents Endodontics to anyone. This is the only root canal I've ever had but it was amazing. I am so happy with EVERYONE that works in that office and the work that was

Dr. Katherine Behrents | Dr. Nathaniel Behrents

done on my tooth. When I have my next root canal, I will be coming back to see you guys. You all are just wonderful. Thank you so much." ~**JS**

- "Staff are superb, everyone was very friendly, and I could tell the staff actually enjoyed doing their jobs. Was just a very pleasant experience considering circumstances. I would recommend Behrents Endodontic Specialists to anyone who needs." ~**MS**
- "I want to thank everyone in the office they are so nice and that helps with someone like me that's so scared of the dentist. I would use you guys with any tooth that ever needed worked on. I was extremely comfortable and love how nice and caring everyone is. And a huge thank you to Mrs Katherine for staying late for me to get me out of agonizing pain. I can't thank you enough!! You guys are the best. Thank u so much for everything and see you again in May." ~**AB**
- "I was only hoping to get the procedure taken care of on the same day as the initial visit, and was pleasantly surprised to have it all taken care of. All of the staff were professional, kind, and caring. I am impressed." ~**CM**
- "The experience was exceptional!! Everything was extremely wonderful..the staff was joyful, Dr Behrents was caring and professional and the procedure was much less invasive than what I thought it would be." ~**DM**
- "I am terrified of any dental work and have heard numerous horror stories of root canals. I was very pleasantly surprised and grateful. I only wish I could have any and all dental work thru your office. THANK YOU for making my time more important than your own, this was a huge for my experience with the other group I work with. In fact, I will change dentists after all paid permanent crowns are in place. I truly appreciate your follow up call the following day. First experience ever with that. I will share my praises for your staff!" ~**KS**
- "You guys are so good; I almost want to mess another tooth up just so I can come back." ~**MH**
- "I was treated very well, great care and love the follow up calls to see how I was doing." ~**BT**
- "Doctor and staff are very pleasant from the time I walk in the door. Conversation helped me get through being so nervous. Thank you. The best service ever." ~**RZ**
- "I was terrified, the Dr and the dental assistant were amazing and put me at ease. The whole experience was way better than I expected!!!" ~**JO**

Behrents Endodontic Specialists

Dr. Katherine Behrents | Dr. Nathaniel Behrents

- "Intense procedure was handled very efficiently and after a good night's sleep only some soreness is present. I am very appreciative of the doctor's and the staff's attitudes. My only concern now is that the problem has completely gone away, and I feel confident that it has." ~**BF**
- "NO pain during procedure, only during injections. Slight discomfort after second day, eased with ibuprofen." ~**WK**
- "Great staff. I would definitely recommend Dr. Behrents office." ~**ET**
- "Great Experience! Thank you!" ~**GB**
- "I absolutely love coming to your office and always feel very taken care of!" ~**BS**
- "I am answering these questions based on a second part of a root canal. Before I had the root canal, I was in very bad shape, full of infection and swollen beyond belief. You turned my life around!" ~**ME**
- "You have a very professional, caring staff and atmosphere. I am recommending your clinic to everyone who asks about my long-term diagnosis and treatment. I also appreciated being able to phone Dr. Nate on the weekend when I was experiencing a lot of swelling. Thank you." ~**VO**
- "Inviting and pleasant atmosphere in office. Well taken care of during visit. I identified with the young athletic personnel." ~**SH**
- "Love your office staff, the endodontist, and the treatment received!" ~**CW**
- "Everyone was very nice. The procedure was explained to me very well before it started and the doctor kept making sure that I was still doing okay. The call the next day to see how I was doing was very nice of them to do." ~**SK**
- "Everything was clean, the dentist explained everything in great detail and was very gentle. Staff was very friendly and the environment there was very welcomed." ~**DW**
- "The worst part of this was my apprehension. It was not nearly as bad as I thought it was going to be." ~**BC**
- "I am overwhelmed with gratitude that you made arrangements to come in at 6:30 am the next morning to accommodate my schedule and needs. Thank you all." ~**HE**

Behrents Endodontic Specialists

Dr. Katherine Behrents | Dr. Nathaniel Behrents

- "I so appreciate that I never had to wait long for my appointment and that you were very mindful of my time. I was always able to get in and out quickly. Such a pleasure to work with ya'll!" ~**TW**
- "This visit was a follow up for a root canal and I had virtually no discomfort after the procedure. I even forgot to take some ibuprofen afterward just in case there might be some soreness. I was amazed at the lack of discomfort during the actual root canal procedure after hearing so many stories over the years of pain and torture from people who had had the root canal. I would definitely recommend your practice to friends and family. Very professional and courteous staff too!" ~**WS**
- "Outstanding in every way!" ~**JO**
- "No one likes to hear that a root canal is needed but my experience was great! Thanks for the awesome service!" ~**CM**
- "I was very nervous but staff was amazing and the dentist she "ROCKS" the atmosphere was very professional but yet laid back. I love the music to keep me calm/relaxed and clinic was very clean. I will for sure go back if I need to and will tell others if they need an Awesome dentist with an amazing staff. Thank You All for this nervous experience, ya'll made it very comfortable : -)" ~**MT**
- "Dr. Katherine is AMAZING! I love how she took the time to talk to me about my teeth, the procedure, and aftercare. She eased my anxiety by explaining everything before she did it....and she sang during the procedure which further decreased my anxiety--I knew she was happy and that could only mean she is very skilled at what she does. The staff is amazing...very friendly and personable. Never had a root canal go as smoothly!" ~**DH**
- "Well done, hope I don't have to do it again. All though you are the best. Thanks for saving my tooth." ~**NC**
- "Thanks for fixing the root cause of my pain, lame pun intended." ~**TD**
- "Once again, Behrents provided exceptional service! They seem to sincerely care about their patients. They give thorough explanations of the procedure and make sure all your questions are answered before leaving. I highly recommend Behrents!" ~**RF**
- "The staff was more friendly during my previous visit. During this visit, very few words were spoken by the doctor or any of their staff. I felt a bit uncomfortable." ~**AL**

Behrents Endodontic Specialists

Dr. Katherine Behrents | Dr. Nathaniel Behrents

- "I would recommend your services to family and friends. Very impressed!" ~LC
- "Everything went better than expected. I hope I never need another root canal, but if I do I would not hesitate to have Behrents Endodontic Specialists perform the procedure." ~GR
- "Thank you to Dr. Nate and all of the wonderful ladies for taking such good care of me! I can't tell you how great it feels to NOT have pain anymore." ~EH
- "Thank you for the treatment. I felt very comfortable during both visits. It was not an unpleasant experience at all, though I thought it might be." ~JR
- "Great staff. Great experience for having a tooth pulled." ~WC
- "It has only been a couple days since the procedure. The area affected is still tender, as I expect it will be for a few more days. I'm taking Advil for any pain, which has been less than expected. Once the anesthesia wore off, I did notice a little bit of a sharp spot on the top of the tooth." ~TQ
- "Very professional and friendly doctor and staff." ~CR
- "Considering that I had a tooth pulled which is not pleasant no matter how good you are, I love this office. Dr. Nate and the entire staff did everything to make me feel comfortable and to make sure I understood what procedures we were doing. Immediately after procedure, I did have a severe headache which subsided after about 1 1/2 hours. I did take my pain medication when I got home and have continued to take something, either the prescription or Ibuprofen and am feeling good and no pain at present." ~SH
- "I have a lot of experience in my life as a dental patient, some good and mostly bad, and my experience with you is one of the good ones. Your office is top-notch. From the website to the intake to the front desk to the procedure to the follow-up, you folks are doing it right in every last detail. I'm grateful for your efforts on my behalf and I will be speaking highly of you." ~KK
- "Extremely pleased with my experience!" ~JD
- "Awesome staff, equipment and procedure." ~JR
- "Actual procedure and aftermath was wonderful. No pain during or after extraction of one tooth and root canal on the other and the final permanent filling of the root canal. Great job." ~LG
- "Fast, professional & loved the music" ~BC

Behrents Endodontic Specialists

Dr. Katherine Behrents | Dr. Nathaniel Behrents

- "I was so nervous but they were so nice and took great care of me. The pain was minimal after the anesthesia wore off and has remained so for the most part. " ~**CK**
- "I have had no pain...started to wonder if any work had even been done. Nice job! A little explanation of the steps in the process beforehand would be helpful." ~**SK**
- "As far as root canals go it was a wonderful experience. I would say after my nitrous oxide though I was still woozy and was told to check out and leave. I was not ready and probably should not have been driving. I am saying this to say you may want to keep your patients a little longer on the oxygen before they leave. Other than that I wish you could do all my dental work including my cleanings!" ~**AK**
- "Given this is only one day after the completion of the root canal procedures, it's too early to evaluate its long term success. Nonetheless, I have no hesitation in recommending Dr. Behrents and her staff of skillful, caring professionals I'm very favorably impressed." ~**DL**
- "Everyone that works there was very sweet, outgoing, caring, kind & patient! They all have a sense of humor, which I love. I am very nervous when sitting in that chair. The 2 things I didn't like were: how bad the anesthesia injection hurt, and how loud & nerve-wracking the drill is! Maybe disposable ear plugs?" ~**NB**
- "I was terrified but the doctor and staff were very professional and efficient. I feel like things went as well as they could have considering the procedure. Thank you." ~**MF**
- "Thank you very much for making a very stressful experience for me very comfortable." ~**CE**
- "Dr. Behrents and his assistant were very gentle. I was very comfortable during the procedure, and was so thankful to be free of pain and discomfort after the procedure. Thank you for taking such good care of me." ~**VS**
- "Thank you, I am thankful to be treated and have the tooth taken care of!" ~**KK**
- "Left very impressed, work was done and no pain involved. Thank you for the care that you give." ~**AT**
- "Top notch treatment from the way the staff treated me to the operation itself. I've not been to any dental office before with this level of service." ~**SH**
- "Great care, I was very impressed." ~**RE**
- "I appreciated you for giving me an appointment as soon as possible and doing the root canal on the same day. I can not believe how good the tooth feels now. Thanks again." ~**KF**

Behrents Endodontic Specialists

Dr. Katherine Behrents | Dr. Nathaniel Behrents

- "He talked briefly when I came in for the consultation. But I don't think he said two words to me during treatment. I asked the assistant questions and she was very helpful. I think it would have been good if he would have went over everything again before he started the procedure." ~**TE**
- "I really liked this office for this procedure. If I ever need another root canal, and I hope I don't, I would like to come here." ~**TM**
- "Very positive experience. Minimal pain the day of the procedure. This morning, the day following the procedure, this is pain when I lightly bite down on any food, however it does not seem to be sensitive to heat/cold." ~**KS**
- "The procedure went extremely well. I have had other root canal treatments and this exceeded my expectations. It was easier than my last cavity fill." ~**RM**
- "Love love love Dr. Katherine! Fun, sweet, caring, efficient! Thanks!" ~**CH**
- "Dr. Katherine Toole Behrents did an excellent job. Cudos to the whole staff. I had poor expectations from I had heard about root canals from others. However, Dr. Katherine not only has the best tools, knowledge, skills and demeanor, she has the passion to make the best of her God given talents. As a former fighter pilot, I know what it takes to be the best at what you do. Dr. Behrents is the best. Thank you." ~**DM**
- "Great treatment from a great team. Thank you." ~**CF**
- "Excellent work and I appreciate you seeing me for a last-minute appointment." ~**JC**
- "I was extremely please with the office staff, as well as Dr. Behrents and her dental assistant. In preparing me for the procedure and during the procedure, both were very comforting and considerate. I would say this was the best dental experience I have had! I would highly recommend their services." ~**MN**
- "Dr. Behrents and his staff are second to one! I would highly recommend them to anyone needing a root canal!" ~**BT**
- "My experience was very satisfactory. I used to be very nervous about having a root canal but it actually seems no different than simply having a regular tooth repair. I would not hesitate to have more work done at Behrents." ~**JO**

Behrents Endodontic Specialists

Dr. Katherine Behrents | Dr. Nathaniel Behrents

- "I would have liked for the doctor to talk to me during the procedure maybe explaining what she was doing just because I am curious." ~**SF**
- "Everyone was very nice and professional. I was surprised with how quickly it was done. The injections, while painful at the moment, yet absolutely necessary, thoroughly numbed the area, so that I experienced very little pain during the procedure itself. I was especially impressed that the after care information was very thorough, and included several numbers to reach the doctors if I needed to do so. It made me feel more at ease that I wouldn't have to just wait it out if I had trouble after normal hours. I have had several root canals in the past, where I lived before, and this experience was far superior to those. If I need this procedure in the future, I will come back here again." ~**AW**
- "The injection on the inside of the mouth roof was the only minor pain experienced but that was expected in that area." ~**DB**
- "I had a bad experience with the dentist that did my crown a year and a half ago. Only went to him for the crown. Was never completely numb for the procedure. I was nervous about the pain level, was comparing it to the crown. I called the office before my appointment to ask about the anesthesia, they were reassuring. I started crying and getting nervous as I sat in the chair, again the staff was reassuring. I was still nervous after the anesthesia was administered. I was asked where I was numb and they gave me a little more time to get numb. I was pleased with the mouth wedge and rubber guard that helped keep my mouth open and stuff from going down my throat. I like how everything was explained as well, since this one was my first time. Will definitely recommend you to any friends. Thank you so much! You've changed the way I view future dental procedures, they don't all have to be bad experiences." ~**BB**
- "Great job and very friendly and competent staff." ~**RH**
- "The only negative I have is that the tooth now feels very rough to my tongue. The entire experience was much better than the anxiety leading up to it." ~**KG**
- "Chair side manner was good, made this a pleasant time." ~**BC**
- "I did not remember that I had no antibiotic by the referring dentist, but it is not a big deal. She took care of me very well and gave me a script for antibiotic following the procedure. Very professional and personal simultaneously. I liked her and the assistant was very good also. No negative here." ~**LP**
- "Outstanding practice! Dr. Katherine is very skilled!" ~**MW**

Behrents Endodontic Specialists

Dr. Katherine Behrents | Dr. Nathaniel Behrents

- "The entire staff at Behrents Endodontic office was courteous and helpful beyond expectation and in relation to other medical offices, it stands out. Ruby was especially sweet and helpful and very skilled in her department. I wish I could go there for all my dental needs. I appreciate the good work done by Dr. Behrents and her availability for questions and concerns after each procedure." ~RR
- "More interaction from the doctor would have been nice. After procedure he left without saying a word and never returned. Also, during the procedure just an explanation of each different steps would have been nice to know what was coming." ~TY
- "No problems now. Very thankful the procedure was a success." ~JC
- "I was very pleased, impressed, and beyond thankful for the care I received from all staff and doctor during my visit with Behrents Endodontic Specialists. I was in so much pain and discomfort prior to my visit. I am now a huge fan of this office and will recommend them to anyone who finds themselves in need of this type of dental care. What a blessing to me and our community to have such great professionals with such high level skill and caring attitude to help us in a time of need!" ~ST
- "I was highly impressed by your facility, the staff, the Doctor, and the treatment. It really put me at ease when Doc was humming and singing along to the songs on Pandora. It made me smile even after I left. Great job guys and gals!" ~DW
- "Worse part of experience was unexpected reaction to pain pills." ~PP
- "The assistant helping Dr. Behrents with my procedure, I forgot her name, was awesome. She sat and talked to me while my mouth was getting numb from the anesthesia, and she was very assuring about how it would go. I wish I remembered her name so I could give her a specific shout-out, but she did a really great job!! Overall, the procedure was much less painful than expected. I appreciated that it didn't take much time. My pain was a 8-10 leading up to the appointment, and now it's just a little sore. Thanks so much!" ~CI
- "I thought everyone acted very professional." ~LW
- "I thought everyone was professional. I guess I am used to having a more outgoing atmosphere while in the "chair". Don't get me wrong, I am happy with the work and had no discomfort and would recommend this office to others however, once I was taken back for the work, the atmosphere became very cerebral. The dentist explained the process but as he proceeded, he really didn't check to see if I was doing ok or talk to me at all. I am sure it is just that he was

Behrents Endodontic Specialists

Dr. Katherine Behrents | Dr. Nathaniel Behrents

focused. Also the assistant was not very outgoing as well. The women at the front desk were very talkative and friendly. The follow-up this morning from Lindsey was very pleasant. Again, I would not hesitate to recommend this office to others. Thank you." ~RS

- "Dr. Behrents and ALL of his staff are Amazing! From the moment I walked in to the moment I left- I was completely taken care of. They answered all questions and made me feel at ease. Dr. Behrents saw me within 15 minutes of my arrival (Wow). This is the best run medical office that I have ever seen." ~RR
- "Very satisfied and although I had virtually no pain from injection i think you ought to install a nitrous system that was not as expensive. It just relaxes me and helps me with these type of procedures. Remember, I was only having a 1 root tooth root canal on a dead tooth. If I was having an extraction or more severe procedure, I would want some nitrous and \$100 is too expensive for that." ~V
